

## Magic you can do at home!

### ...THE BANANA CHOP...

1. Present a Banana.
2. Pretend to Chop the Banana.  
(Do not actually touch the banana)
3. Peel the Banana.
4. And behold the banana is in pieces

### ...THE SECRET...

Before you start you will need 1 banana and a toothpick.

Stick a toothpick into a banana somewhere along a seam.

Rotate the toothpick left and right inside the banana, cutting all the way through the fruit, but not through the peel.

Try to keep the hole the toothpick makes as small as possible.

Take the toothpick out and repeat at another spot on the banana.

Keep making internal slices until you have at least five or six.
